

Patent  
Serial No. 10/518,252

Amendment in Reply to Final Office Action of August 4, 2006

IN THE SPECIFICATION

Please amend the specification as follows:

Replace the paragraph on page 1, between lines 33-34 of the specification with the following:

To achieve the object mentioned above, a data carrier as described in the opening paragraph has the characterizing features as defined in Claim 1 in accordance with an embodiment of the present system to control a demonstration of an inherent function of a playback device.

Replace the paragraph on page 2, between lines 1-2 of the specification with the following:

To achieve the object mentioned above, a playback device of the type described in the second paragraph has the characterizing features as defined in Claim 2 in accordance with an embodiment of the present system including demonstration control data for performing a demonstration including emulating accessing of an external data network.

Replace the paragraph on page 2, between lines 18-20 of the specification with the following:

It was found to be advantageous in the embodiments an embodiment of the invention if means as claimed in claim 3, claim 4, and claim 6 are provided present system if the data carrier is an
